Peal Compositions Committee.

Central Council of Church Bell Ringers

A Collection of

Grandsire Compositions

Prepared on behalf of the Peal Compositions
Committee

2004

This collection has been brought together from many sources, including submissions from composers, compositions previously published in the *Ringin' World*, and those published in association reports.

The aim of the collection was to include compositions that would interest the new and experienced conductor alike; as such there are very few old compositions of Caters or Cinques based on long courses. It was decided to include compositions for all stages from Doubles to Sixteen, the extremes of Grandsire at present.

To assist the identification of a composition suitable for your requirements, each section from Doubles to Caters has been arranged in order of decreasing number of parts, composer alphabetically and then length. The sections from Royal to Sixteen have been arranged alphabetically in composer order and length.

The first section is Doubles, and includes the standard extents and a selection of multi-extent callings. Included in the 120s are some examples of extents using extremes (e), which have place notation 3.125 for the calling. Using all the possible rotations of these callings, together with the rotations of the standard callings 42 different extents can be called. The 240s include the well-known compositions attributed to Pitman, Morris and Price. In addition there are some examples of other lesser-known 240s. There is also a selection of longer blocks, with a 720, some 840s, and two peal lengths. For much of this we are grateful to Tony Price who has investigated all the possible 120s and 240s using a variety of calls and supplied his treatise for use. Unfortunately it is too large to include here, so a selection of compositions have been chosen.

The Minor section includes some 1440s at the end of the section. There are three 720s by Ander Holroyd that utilise extremes rather than singles to achieve the extents. Of these, No 39 is believed to have the longest length available using bobs only.

In the Triples section the one-parts start with the most famous of all Grandsire Compositions, Holt's Original. Below the figures of this composition we have included the list of bells before – this is a common way of learning the one-part composition by listing the bells which make 3rds (unaffected) at each call. This facility has been included for all one-parts. Numbers with no space between indicate calls that are made at consecutive leads. When a single is made, it is the bell that makes long 3rds that is given. In addition, there are compositions using Holt's Bob Singles and Holt's Plain Lead Singles. These are bobbed or plain leads respectively with additional 4567 places made as the treble leads.

Caters is by far the most populous section of compositions, so the one-parts have been further divided into standard compositions (168 – 329) and more complex compositions (330 – 345). This is a subjective decision, based on the courses used, the frequency of when the back bells change position, and the number of repeated blocks.

The final small section includes some miscellaneous compositions, starting at No 455. Included here are the only peal rung of Grandsire Triples using common bobs only, which had to be 10080; a peal of Variable Cover Triples; Spliced Triples and Major, Spliced Caters and Royal; and some unusual lengths of Grandsire Caters designed for special anniversaries. There are also some compositions of long lengths that have been used for various record peals over the years.

Many thanks to those who have contributed to this collection without whom it would not have been produced. Special mention must be made of Tony Price for providing us with his Doubles treatise, and also Charlie Reede and the Dublin ringers who provided copies of Gabriel Lindoff's papers from which some compositions have been chosen. For their hard work, thanks to the members of the Peal Compositions committee who have proof read the drafts and assisted in the production of this collection – Don Morrison, Roddy Horton, Philip Saddleton and Roger Bailey.

Richard Allton
On behalf of the Central Council Peal Compositions Committee.
